## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 19, 2004 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 24 and 33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 24 recites the limitation "said base" in line 2. There is insufficient antecedent basis for this limitation in the claim.

5. Claim 33 recites the limitation "said base" in line 2. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3727

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 12, 13, 15, 17-19, 21, 23, 24, 26-30 and 32 are rejected under 35

U.S.C. 102(b) as being anticipated by Bodde 3,804,308.

Bodde teaches a mounting assembly comprising a mounting arm 13, a swing arm 15, a planar platform 26, an article carrier 27, a pivot pin 16, a socket and stub shaft 21, 18, mounting lugs 14, 36, and a first pin 31.

8. Claims 12, 13, 15, 17-19, 21-24, 26-30, 32 and 33 are rejected under 35

U.S.C. 102(b) as being anticipated by Surkin 6,123,498.

Surkin teaches a vehicle rack comprising a mounting arm 40, a swing arm 60, 90, a planar platform 100, an article carrier 112, a pivot pin 70, a socket and stub shaft 138, 134, a mounting lug 48, a first pin 86 and second pins 162, 164.

***Claim Rejections - 35 USC § 103***

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bodde 3,804,308 or Surkin 6,123,498.

The pins of Bodde and Surkin are secured by a nut instead of the claimed clevis. The examiner takes official notice that a clevis is an old and well known equivalent means to

a nut for securing a pin. It would therefore have been obvious to one of ordinary skill in the art to substitute an equivalent clevis for the nuts taught by Bodde and Surkin.

***Allowable Subject Matter***

11. Claim 14, 20, 25 and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
